Children's Play Will Be Fine Production

Now that "The Yellow Jacket" has passed into history, a successful artistic and financial production, the Forest Theatre organization has under way the children's play, "Snow White."

Rehearsals began early this week, a large number of children and others presenting themselves for the numerous characters.

The elaborate stage settings for this three-act adaptation of Grimms' fairy tale, will be constructed under the direction of William P. Silva, the well known artist, who in times past has done splendid things in this line on the Forest Theatre stage. Phil Whiting has been engaged to assist in this work.

In every way, lighting, scenically, casting, it is the purpose of the producers, Messrs. Heron and Hilliard, to maintain the high standard of "The Yellow Jacket."

Tickets are now on sale at The Seven Arts for the two performances, July 23 and 24.

Piano Tuner A. W. Pooley is here for a short time. Leave orders at this office.

"Are you the Story Lady?" asked a manly little boy of Miss Featherstone, at the same time removing his cap.

"Children do call me that sometimes," replied the lady.

"And is this Storyland, where you tell Bible Stories?" When assured that it was, the boy dropped upon the pine needles, saying "I was so afraid I couldn't find the place, and I do want to her Bible stories—think they'll do me good."

Only a dozen found their way last Sunday, but how they did sing and how they enjoyed the story of the very first day of the world—the creation story. All said they would be there with their friends next Sunday.

The Wonders of America

By T. T. MAXEY

THE GRAND CANYON IN ARIZONA.

THE late George Fitch said "Arizona was made by nature in a frivolous and contradictory mood, a few million years ago, just to show man, when he arrived, what she could do when she felt like it."

The Grand Canyon of the Colorado River—the most wonderful geological and spectacular phenomenon known to man—is in Arizona. Discovered by Spanish explorers in 1540, it has been an object of wonder and admiration ever since. In approaching it your first surprise is that you are not prepared for it. Its beginning is so very abrupt. In one jump from the edge you could go down 2,000 feet.

Viewed from the rim, looking down, it is a stupendous panorama—an unbelievable abyss, 3,000 to 5,000 feet deep, 10 to 13 miles wide and 200 miles long. Its sides are lined with countless and varied ornamental architectural features, the whole beautifully tinted and colored and marvelously harmonious. Seen from the bottom, looking up, it is so big that it amazes and bewilders one. On every side are endless processions of caves, terraces, pinnacles, towers, buttes, cliffs and peaks—storm-carved and weather-stained—many of them higher than any mountain east of the Rockies, yet none of them level with the top. Globe trotters say that nothing else in all the world even remotely approaches this spectacle.

The color combination seems to shift with every movement of the sun, clouds or your position. There is a trail to the bottom and a road around the rim.

ITEMS OF INTEREST.

Miss Louise Witten or San Jose came down last week to visit with Miss Margaret Clark.

Time was when one movie show a week was enough for Carmel. Now we have three a week, and a crowded house every performance.

If anyone didn't have a good time at the Hooper dance last Friday evening we haven't heard about it. There were just enough couples on the floor to make dancing comfortable, and the refreshments were not overlooked.

W. C. Burr and daughter of Parsons, Kansas, recent guests of Mrs. Albert Otey, visited for a week with Mrs. Otey's son, Ray, and his wife, in Oakland.
